

How to make a Mummy?

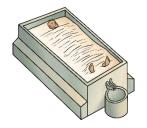

Activity: Number the correct order of the mummification process!

Finally, place the mummy in a sarcophagus and move to the pyramid.

Wrap the body in linen fabric, adding amulets and Book of the Dead.

Cover the body with natron salt. Leave it to dry for 40 days.

Cut out the internal organs
(except the heart). Put
the liver, lungs, stomach,
intestines into canopic jars
to dry.

After 40 days, remove the natron and pack the body with straw, dried grass, or linen.

Apply makeup, fake eyes and hair to make it look nice.

Wash the body with palm oil and water from the river.

Next, pull out the brains through the nostrils using a hook. Fill the skull with sawdust or resin.

Design an Egyptian Sarcophagus
